## RE: CVA ECE (Nursery, Toddler, Pre-Kindergarten) will be open Monday, March 23

Asalamu Alaikoom. Crescent View Academy has received new guidance from the Colorado Department of Human Services (Office of Early Childhood) and the Colorado Department of Public Health and Environment (CDPHE), that Childcare centers should remain open. Per the guidance, CVA ECE Department (Nursery, Toddler and Pre-Kindergarten) will remain open unless otherwise directed. We follow the guidance from the above agencies and will communicate a closure if a staff member, parent or student of the ECE department is infected by the COVID-19 (Corono virus). We will be following the daily cleaning and precautionary protocols. CVA Nursery, Toddler and PK will be open at 7:45 AM - 4:15 PM unless otherwise noted.

### Please see guidance update displayed below:

COVID-19 Update to Child Care Providers and ECCs from the Office of Early Childhood

### Child Care Closure Guidance

On Saturday, March 14th, [communication from the Office of Early Childhood](#) (OEC) with Guidance for School and Child Care Closure was sent to all licensed child care providers and Early Childhood Councils. This guidance is from the [Colorado Department of Public Health and Environment](#) (CDPHE).

As of Sunday, March 15 at 5 p.m., CDPHE continues to recommend that child care providers remain open unless they have a confirmed case of COVID-19 in a staff member or child. Please refer to the CDPHE [Guidance for School and Child Care Closure](#) page for ongoing updates.

We understand this guidance may be confusing, particularly with many K-12 schools closing. Early care and learning settings are generally smaller in size than school districts and college campuses. These large settings present higher risk for widespread transmission than smaller child care facilities. Additionally, offering child care supports families who must work, particularly to those who perform essential functions in emergency situations, and serves as a consistent source of meals and safe supervision for children. It is for these reasons that CDPHE and the OEC continue to recommend child care facilities remain open unless they meet the criteria set by CDPHE.

Jazakum Allah Khair,

Iyad A. Wazwaz  
CVA Principal
