Coronavirus COVID 19 Guidance

Asalamu Alaikoom. In an effort to keep our school community safe and healthy, please follow the guidance protocols of Tri-County Health:

- Stay home you are ill
- Cough or sneeze into their sleeved arm or cover their nose and mouth with a tissue. Throw away the tissue after they use it and wash hands.
- Avoid touching their eyes, nose, or mouth.
- Wash their hands frequently and for at least 20 seconds with soap and water, especially after they cough or sneeze; an alcohol-based hand rub can be used if soap and water are not nearby, but hand washing is always the best defense.
- Avoid sharing cups and eating utensils with others.
- Clean and disinfect frequently touched objects and surfaces like doorknobs, tables and handrails. Regular cleaning and sanitizing products can be used.

For an additional list of recommended products visit: https://www.epa.gov/sites/production/files/2020-03/documents/sars-cov-2-list_03-03-2020.pdf

Teachers, Caregivers, and Families Should:

- Not come to school if they are ill
- Practice control measures listed above at home and in group care settings.
- Report any suspected infection to the staff member designated by the child care program or school.

CVA is making every effort to disinfect and sanitize the school on a daily basis. We are reminding students to wash their hands regularly and have sanitizing wipes and hand sanitizer regularly available. Kindly, we ask that you make sure you children bring home their outer wear and lunch boxes daily and they you also make an effort to help them keep their personal items cleaned.
